**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 27 July 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

It would be of great assistance to the Office if all incoming papers pertaining to a filed application carried the following items:

1. Application number (checked for accuracy, including series code and serial no.).
2. Group art unit number (copied from most recent Office communication).
3. Filing date.
4. Name of the examiner who prepared the most recent Office action.
5. Title of invention.
6. Confirmation number (See MPEP § 503).

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10,15,20-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ten Kate.

Ten discloses a data expansion apparatus (fig.1b) for expanding a data compressed information signal comprising: a receiver fig 1b); an input means for receiving the data compressed composite information signal (TRMM, 40); a data expansion means for data expanding the data compressed information signal (41,48,49,50) a retrieval means (51,52) for retrieving a replica of the first and second information and output means (51,52) for supplying the replica of the at least first and second information signals (R', L'); the data expansion means has a control input for

receiving a control signal(42,102,45,120).(see fig. 1b col. 9, lines 36-46, col. 11, lines 23-26 and col. 11 lines 35-65).

Kate differs from the claimed invention in that the expanded information signal are first retrieve (split) then compressed individually with a plurality of expanders (48,49). However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use one expander (as opposed to plurality) to expand the composite information, since there is no new or unexpected result by doing so.

***Allowable Subject Matter***

3. Claims 1-9,11-14,16-19,22-25 are allowed.

***Response to Arguments***

4. Applicant's arguments filed 5/4/09 have been fully considered but they are not persuasive. Applicant argues that Kate does not disclose or suggest "data expansion means being adapted to expand the data compressed composite information signal as recited in claims 10 and 20.Examiner agrees with applicant that the data expanded by Kate are not compressed composite signal but compressed individual signal. However, expanding "compressed composite signal" or "compressed individual signal" does not show any new or unexpected result.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Temesghen Ghebretinsae whose telephone number is 571-272-3017. The examiner can normally be reached on Monday-Friday from 8 to 6. The examiner can also be reached on alternate.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammed Ghayour, can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
